The Prinz Law Office to Expand Silicon Valley Headquarters

SILICON VALLEY, CA -- The Prinz Law Office, the premier global tech & life sciences IP business law firm, is pleased to announce that it will be expanding its Silicon Valley headquarters in San Jose. The firm has entered into a two-year commitment regarding a fifth-floor office suite at 2033 Gateway Place effective September 1, 2017.

Kristie Prinz, Founder of The Prinz Law Office, explained, "The firm is pleased about the continued growth of the organization, and is looking forward to being able to better serve the needs of our local and global client base through our new office commitment. We are very excited to become a long-term member of the Gateway Place business community."

The Gateway Place office complex is comprised of five, class A, campus-style office buildings, which have been extensively renovated over the past year. Exterior renovations include new "through building" lobbies, re-landscaping and outdoor seating areas with Wi-Fi, façade painting and graphic wayfinding signage. Interior improvements are comprised of vibrant indoor/outdoor furniture; lobby "annexes" and Wi-Fi lounges; a new on-site conference center and café; and a remodeled fitness center, bathroom and corridor. The office complex provides walkable amenities, including nearby jogging and biking trails, as well convenient access to all major freeways, including highways 87, 101 and 880/17. The Gateway Place complex is also adjacent to the San Jose International Airport, making it a convenient meeting place for out of town travelers. The VTA Metro/Airport Light Rail station provides free shuttle service to Caltrain and the airport, as well as a transit connection to Capitol Corridor.

###

THE PRINZ LAW OFFICE:

The Prinz Law Office is a leading global tech & life sciences IP business law firm, which represents small to mid-sized businesses, start-ups, and individual entrepreneurs, developers, engineers, physicians, and inventors in small to large-scale commercial transactions involving their intellectual property and technology.
