Takeaways for Software Industry on the Cost of Data Breach

If you are a cloud service provider or a software provider who offers maintenance services to enterprise-level companies, then your company has likely had occasion to negotiate indemnification clauses related to data breaches. Moreover, your company has probably had to provide warranties around data security or employee bad acts that would provide some protections to your customers in the event of a data breach. But have you ever considered what the cost of a possible data breach might really be for your company? The Silicon Valley Software Law Blog addresses this issue in the following blogpost:
