Microsoft Launches New Constitutional Challenge Against Alleged Federal Government Searches of Customer Data in Cloud

Microsoft has just launched a constitutional challenge against the federal government over its use of indefinite gag orders when the government subpoenas information from customer cloud account. The action was clearly timed to capitalize on public sentiment against the government for its perceived intrusion

on privacy rights in the recent action against Apple regarding the encryption of the San Bernardino terrorist smartphone. The Silicon Valley Software Law Blog further explores this development in the blogpost linked below:

Government Signals Possible Reversal of Course on Apple Litigation

The Department of Justice signaled today that it may be rethinking moving forward with the Apple litigation over the iPhone encryption issue, canceling a hearing scheduled for tomorrow in order to explore a possible new method that had come to light for unlocking the terrorist iPhone that has sparked the dispute. The Silicon Valley Software Law Blog further explored today's developments in the following blogpost:
