

Takeaways for Software Industry on the Cost of Data Breach

If you are a cloud service provider or a software provider who offers maintenance services to enterprise-level companies, then your company has likely had occasion to negotiate indemnification clauses related to data breaches. Moreover, your company has probably had to provide warranties around data security or employee bad acts that would provide some protections to your customers in the event of a data breach. But have you ever considered what the cost of a possible data breach might really be for your company? The Silicon Valley Software Law Blog addresses this issue in the following blogpost:

The Encryption Debate: Will Government or Industry Win?

When the Justice Department decided to wage a legal battle against Apple over encryption on the iPhone of one of San Bernardino terrorists, the government moved the encryption debate into the public arena and triggered a public debate over the issue. Now, it is reported that the government is considering launching a second case over the encryption issue against yet another company. Who will be the ultimate winner in this debate? The Silicon Valley Software Law Blog explores

the issues in the following blogpost:
